191 Design Names Bar	•	•	•	•	•
192 ROBOTUFT Plug-in				•	•
193 3D Carpet Designing Plug-in					•
194 Smart Cut/Loop Plug-in					•

Operation System:

Windows XP, 7, 8.1 or 10 (32 bit or 64 bit) (recommended 64 bit)

Library of 1750 Motifs:

Library of 1750 Classic Carpet Motifs could be used with all of eDesigner editions only. One library can be used for whole design department.

Standard Edition:

Include necessary features and tools for designing carpets and rugs effectively besides it has special tools and features for designing more conveniently. This edition is ideal for most of the medium size companies, home designers and carpet and rug producers.

Professional Edition:

For professional designers and include all the advanced tools and features. This edition is ideal for professional designers and producers to handle all their advanced requirements easily and create their own masterpieces.

Professional+ Edition:

This outstanding edition is highly recommended for expert designers and well known companies which highly active in the field of carpet and rug. This edition supports all the requirements for carpet and rug designing and additional features such as; Border Wizard, Pile and Loop Combiner, Color Harmony andAlso, it includes all the features and functions which other peer solutions may separately have.

Robotuft Edition:

This advanced and unique edition supports hand-tuft Robots and let the designers prepare designs for these devices easily without any boundaries. With this revolutionary Raster to Vector Conversion Solution which comes with important features and functions designers can easily create various designs for hand-tuft robots.

This edition is including Professional Edition with RoboTuft Plug-in.

eTuft 3D+ Edition:

This outstanding edition is including Professional+ Edition with RoboTuft, 3D Carpet designing and Smart Cut/Loop Plug-ins.
